ALLIES PREPARE TRICK DRIVE TO CUT OFF TURK CAPITAL TROOPS READY TO FIGHT VILLA

ORDER IS SENT BY FUNSTON: DEFEND TOWN FROM ATTACK

'Enforce American Neutrality,'
Major General Wires Forces As
Villistas Advance On Agua
Prieta, Just Across the Border

SIX THOUSAND SOLDIERS MASS THERE FOR DEFENSE

Meanwhile Thousands of Carranza
Reinforcements Are Enroute
Over American Soil, Under
Permission, To Relieve Calles

(Associated Press by Federal Wireless.)
WASHINGTON, October 29.—The
neutrality of the United States
will be enforced with arms if
necessary at Douglas, Arizona, where
an attack is threatened by General
Villa, who is moving on the division
of Agua Prieta, the Mexican town just
across the border.

Maj. Gen. Frederick Funston, com-
mander of the border forces, has wired
the commander at Douglas to be pre-
pared to "enforce American neutral-
ity."

According to advices from Douglas,
General Calles, the Carranza commander
at Agua Prieta, has built a strong line
of defenses on the south edge of the
town to prevent a flank attack. It is
from such an attack that Douglas has
the most to fear, for many "stray"
bullets would come in to the town if
the Villistas attacked from that direction.

Mexican Relief Via Texas
General Villa with his 8000 troops
against Calles' 3000 will not have the
advantage for long for Carranza re-
inforcements are en route to Agua
Prieta over American territory, accord-
ing to dispatches from Laredo, Texas.

Having obtained the government's
permission several days ago to trans-
port troops to Northern Sonora, via
Texas, New Mexico and Arizona, sev-
eral thousand Carranzistas entered the
United States at Laredo, Texas, yes-
terday, and immediately entrained for
Douglas. The troops came from Pie-
dras, Negras, a town near Monterey in
Coahuila.

The Carranzistas have no access to
their firearms while on American soil.
All their weapons are sealed in boxes
in accordance with terms dictated to
the Mexicans by the Washington govern-
ment when Carranza's agent ob-
tained permission for the overland
relief expedition.

AMERICAN TROOPS MASS AT DOUGLAS

DOUGLAS, October 29.—The threat-
ened attack by General Villa on Agua
Prieta is expected to begin tomorrow
night or early Sunday morning. By
that time it is expected 6500 American
soldiers will be in and near Douglas.

One battalion of the Twentieth and
one of the Twelfth Infantry has ar-
rived from Fort Bliss, Texas, and it
is expected one of the regiments will
be completed by the arrival of new
Fort Bliss troops today. The second
regiment is expected to be completely
assembled tomorrow. Two batteries of
the Sixth Artillery are expected today.
They will bring up the artillery
strength to sixteen three-inch field
pieces.

It had been expected that all of the
reinforcements would be here early this
morning, but the movement from Fort
Bliss has been delayed because of a
shortage of trains, but at the latest
they will reach here before the fighting
begins across the border.

With 6500 troops on the ground com-
manding officers say Douglas residents
have no need to fear capture of the
town or an attack by Villa. Neither
will the neutrality of the United States
suffer, they say. Major General Fun-
ston's orders to enforce American neu-
trality have been received and they
will be carried out to the letter.

FINANCIAL KINGS FACE PROSECUTION FOR CONSPIRACY

Court Declares New Jersey Cen-
tral Railway and Coal Com-
pany Are Combine

NEW HAVEN DIRECTORS USED POLITICAL BOSS

Government Takes Appeal From
Decision Favoring United
States Steel Corporation

(Associated Press by Federal Wireless.)
NEW YORK, October 29.—The de-
partment of justice is now conducting
a series of prosecutions and investiga-
tions under the terms of the anti-trust
legislation. In the federal court at
Philadelphia yesterday a court decree
was issued declaring that the owner-
ship by the New Jersey Central Rail-
road of the Lehigh and Wilkesbarre
Coal Company constitutes a combina-
tion in restraint of trade. The decree
ordered a separation of the joint con-
trol.

Conspiracy Is Alleged
In the trial of the eleven directors of
the New York New Haven & Hart-
ford Railroad, charged with conspiracy,
one of whom is William Rockefeller,
brother of John D. Rockefeller, the
government has produced evidence
showing that the directors had employ-
ed Gen. Charles Brannan, the "Bill
Boss" of the island, to secure the
passage through the legislature of bills
authorizing the construction lines to
compete with the New Haven system,
thus assisting in the financial destruc-
tion of the corporation.

Steel Trust Involved
In New Jersey yesterday, the govern-
ment filed a petition in the federal
court at Trenton for an appeal to the
Supreme Court of the United States in
the government's case against the United
States Steel Corporation, the fed-
eral court having decided against the
government in the suit brought against
the corporation under the Sherman
Act.

Of all the cases the government is
now fighting against the corporations,
that against the New Haven directors
is attracting the most attention, be-
cause of the prominence of the eleven
men charged with conspiracy.

Rockefeller Is Involved
William Rockefeller is a brother of
John D. Rockefeller, and one of the
richest men in America. More so than
his brother, he has been a large factor
of the railway world, having been at
various times officer or director of
some of the most important railroads
of the country. Although he recently
severed his connection with the New
Haven, he is still listed as a director
of the New York Central, the Chicago,
Milwaukee & St. Paul, and the Dela-
ware, Lackawanna & Western. Mr.
Rockefeller is now seventy-four years
old and has been in poor health for
years, suffering from an affection of
the throat. Three years ago the Con-
gressional Committee which investigat-
ed the "Money Trust" desired him as
a witness and over the protests of his
physicians, an attempt was made to ex-
amine him at his Southern home at
Jekyll Island, Georgia, where he was lo-
cated after weeks of search by sales-
pomen servers. The questioning was
abandoned when he was seized with
laryngeal spasms and after his physici-
ans protested that the ordeal might
cause his death. Mr. Rockefeller lives
at Tarrytown, New York.

Lewis Cass Ledyard is one of the
prominent lawyers of the country. He
was for years counsel for the elder J.
P. Morgan and was his chief adviser
in the organization or financing of a
number of the great industrial and rail-
road enterprises with which the Mor-
gan firm has been connected, notably
the United States Steel Corporation. In
several of them he became a director,
including, beside the New Haven, the
New York Central, Northern Pacific
and the American Telephone and
Telegraph Company. He took a promi-
nent part in the famous deal which re-
sulted in the acquisition of the Ten-
nessee (Continued on Page Three)

VILLISTAS SURRENDERING
(Associated Press by Federal Wireless.)
VERA CRUZ, October 29.—Many
Conventionalists are surrendering daily
to the commanders of General Carranza
in the field, according to a report
given out here yesterday, and they are
receiving amnesty as promised by the
First Chief in an interview after his
recognition by the United States. Ser-
vice on the Vera Cruz, Mexico City
railroad, has been resumed.

RAILWAY BRIDGE At Lille, Important Strategic Point In Northern France, Where Many Thousands of British and French
Troops Have Died In Heroic Effort To Capture Structure and Thus Possess Railroad Connections Used By Teuton As Feeders

RURAL CREDITS ARE LOST IN CALIFORNIA

Voters Also Defeat Initiative and
Referendum In State

(Associated Press by Federal Wireless.)
SAN FRANCISCO, October 29.—Practically complete returns on the
state referendum of Tuesday on the
proposed constitutional amendments show
that the initiative and referendum and
rural credits have been defeated.
The proposition stipulating that
judges of the higher courts shall re-
tain office until their successors qual-
ify appears to have carried. This is
the only one of the dozen or more
proposed amendments that has been
indorsed.

The initiative and referendum, as
planks in the Progressive platform,
have been advocated strongly by Gov-
ernor Johnson, who is of that party.

The governor's friends say rejection of
the initiative and referendum and the
proposition of non-partisan state elec-
tions cannot be construed as a rebuke
to his administration, however, as less
than half the registered voters partici-
pated in the referendum.

MUNITIONS FOR RUSSIA DESTROYED AT SEATTLE

Incendiary Fire Burns Pier of
British Steamship Line

(Associated Press by Federal Wireless.)
SEATTLE, October 29.—A pier oc-
cupied by the Blue Funnel Steamship
Company, a British line, was destroyed
by fire last night and big stores of
munitions awaiting shipment to
Russia were destroyed. The loss has
been estimated at \$500,000.

The fire is believed to have been of
incendiary origin. There have been
two other fires on the waterfront in
the last few weeks, each in the vicin-
ity of stored war munition.

It is hinted that the same fire-
bug or arson ring is responsible for all
three of the fires and that the fire
may be the result of a plot aimed at
the Allies.

RUSSIAN AGENTS SEEK BIG LOAN IN NEW YORK

Czar Wants Wall Street To Ad-
vance Huge Sum of Money

(Associated Press by Federal Wireless.)
NEW YORK, October 29.—It was re-
liably reported in Wall Street yes-
terday that Russian agents are here ne-
gotiating for a loan to their government
of a sum between \$50,000,000 and \$100,
000,000. Some reports place the amount
above \$100,000,000.

Unlike the \$500,000,000 loan nego-
tiated here recently by a commission of
Anglo-French financiers, the Russian
government would not put up bonds as
collateral, according to the Wall Street
gossip. The Russian government is
willing to pay interest, and it is said
that it is willing to pay as high as nine
per cent.

Only a fortnight ago Russia award-
ed war contracts of more than \$50,000,
000 to two American firms. Since then,
by imperial ukase the minister of
finance has been authorized to arrange
a war credit abroad of \$2,750,000,000.
An internal loan of half a billion also
is to be floated soon.

It is thought that the big loan Rus-
sia is reported to be negotiating here
is part of the plan for establishment
of the \$2,750,000,000 credit abroad.

PRESIDENT WILL RECEIVE BIG SUFFRAGE PETITION

(Associated Press by Federal Wireless.)
WASHINGTON, October 29.—The
monster petition drawn up by the wo-
man suffrage leaders and kept for six
months in the Women's Suffrage head-
quarters at the San Francisco ex-
position, which contains more names than
any petition ever yet addressed to the
President and congress, will be for-
mally received by the President on De-
cember 6, when he will receive the
delegates from the Women Voters Con-
vention, elected by the convention held
in San Francisco to accompany the pe-
tition to the Capital. The petition
urges congress to enact a constitutional
amendment for submission to the vari-
ous States providing for equal suffrage
throughout the Union.

RUSSIANS CONFISCATE BUSINESS OF GERMANS

(Associated Press by Federal Wireless.)
PETROGRAD, October 28.—Russian
officials are taking control of millions
of acres of land and hundreds of in-
dustrial, financial and mercantile busi-
nesses heretofore held by Germans.
They are ousting the Germans from
business of all sorts.

PLAN MIKADO'S TRIP
(Special Cable to Hawaii Shiping)
TOKIO, October 28.—Emperor Yoshi-
hito will leave Tokyo early November
7, by the Imperial Special for Kyoto,
the ancient capital, according to sched-
ule announced here today. He will ar-
rive at Kyoto the same afternoon at
two o'clock.

VIOLATORS OF PAROLE ARE CAPTURED AT SEA

Six German Naval Officers Over-
hauled By British Warship

(Associated Press by Federal Wireless.)
NEW YORK, October 29.—The six
German naval officers who broke their
parole at Norfolk, Virginia, where the
commerce raiders Prinz Eitel Fried-
rich and Prinz Friedrich Wilhelm had
been interned, have been captured, ac-
cording to mail advices received here,
by a British warship. Where they were
captured is not revealed.

The information bears out previous
reports that the six Germans, escaped
in the yacht Keltipia, at Pensacola, for
it says that the men were taken from
the Keltipia. The yacht was found at
sea by the warship during a search
for the craft under orders.

The letter says the yacht was sunk,
but makes no mention of any fighting.
It is presumed, therefore, that the Ger-
mans surrendered upon being over-
hauled. It is rumored that the British
warship was the Melbourne.

PENITENTIARY TRUSTY ON TRIAL FOR MURDER

Negro Accused of Killing Wife of
Joliet Warden

(Associated Press by Federal Wireless.)
JOLIET, Illinois, October 29.—Joseph Campbell, the negro trusty in
the state penitentiary here, who is
accused of having murdered the wife of
Warden Allen, was placed on trial
yesterday.

The crime with which Campbell is
charged is one of the most diabolical
nature. Campbell is accused of hav-
ing attacked the warden's wife in her
quarters and then killing her by
pounding in her head with a jug and
setting fire to the room.

Campbell was one of the servants
assigned to attend the warden and his
wife. Evidence will be presented that
he was seen coming from Mrs. Allen's
rooms shortly before the fire was dis-
covered.

TWO MORE WOMEN NURSES MUST DIE, GERMANS DECREE

(Associated Press by Federal Wireless.)
AMSTERDAM, October 28.—Two
more women nurses have been sen-
tenced to execution at Liege because
they are declared to have helped Brit-
ish and Belgian prisoners to escape
from Belgium, according to the Tele-
graph today. The Telegraf says three
were shot recently and that the fate
of Anna Brunzet, who was sentenced
to death last Monday, has not been
learned.

CABINET OF FRANCE RESIGNS IN A BODY

Criticism of Entente Allies
Causes Ministry To Collapse

(Associated Press by Federal Wireless.)
PARIS, October 28.—Criticism
against the allied governments, intensi-
fied since the entry of Bulgaria into
the war on the side of the Teutons,
and discussion in the French cabinet
itself, have brought about the resigna-
tion of the entire ministry.

With Premier Rene Viviani leading
the way, the ministry resigned today.
President Poincare has asked Aris-
tide Briand to form a new cabinet
in any event, it is understood that
Briand is strongly favored to become
foreign minister. It is not intended
that getting Premier Viviani shall
leave the cabinet altogether but that
he shall become minister of justice.

MAY BAR CHRISTIANS AT MIKADO'S CROWNING

(Associated Press by Federal Wireless.)
TOKIO, October 28.—Officials in
charge of the emperor's coronation
ceremonies are planning to permit
representatives of the Christian reli-
gion to attend the ceremonies of the
coronation proper. Only Buddhist and
Shinto representatives will be present
on account of the court's standing on
religious matters. Representatives of the
Christian religion will be invited to the
coronation banquet on November 16,
however.

NEW MACHINERY SOUGHT FOR 'F' TYPE SUBMARINES

(Associated Press by Federal Wireless.)
WASHINGTON, October 28.—It is
announced by the navy department
that the department plans to ask Con-
gress to appropriate for new engines and
batteries in the submarines of the F
class. The damage done to the F-1
in the disaster off Honolulu harbor last
March has been officially declared too
great to admit of repair.

STREET RAILWAY CABLES GIVE COPPER FOR SHELLS

(Associated Press by Federal Wireless.)
LONDON, October 28.—According to
a Reuters dispatch from Copenhagen
the Germans are so in the need of
copper for munitions of war that the
municipality of Kiel recently ordered
the abandonment of its street cable
railway so the copper cables could be
used for making shells. When the
cables had been melted nearly 7000
tons of copper was obtained.

WAREHOUSE IS DESTROYED

(Associated Press by Federal Wireless.)
BALTIMORE, October 29.—The Bal-
timore & Ohio Railroad bonded ware-
house here was destroyed by fire yes-
terday. The contents were estimated
in value at \$400,000 and the building
and piers at \$50,000. Cased wires are
said to have been in the fire.

RUSSIANS MAY SEND TROOPS VIA RUMANIA TO BULGARIA

Muscovites Plan To Link Up With
Anglo-French In European Tur-

Export of Copper To Teutons

TURKS PREPARE TO MEET CONSTANTINOPLE ATTACK

Milan Says Officially That Rep-
resentative of Czar Is Now In
Bucharest Making Terms For
Marching Men Through Country

(Associated Press by Federal Wireless.)
LONDON, October 29.—The situa-
tion in the Balkans is fast shap-
ing down into a great race for
Constantinople, with a probability
of the Russians hurrying an army from
the north through Bulgaria, to join
hands with the forces of the Allies to
be pushed north, in a grand endeavor
to throw a line across European Tur-
key to bar the entrance of a German
and Bulgarian army with reinforce-
ments and supplies for the Turks and
to prevent the exportation from Tur-
key of the supplies of raw copper
which the Germans are believed to be
desperately in need of.

The accomplishment of the design of
the Allies, if it is to be accomplished,
means that the Serbian army in the
north must be left to its fate for the
time being, the Serbian force to fight
to the last to delay the advance of the
Austro-Germans and to hold as many
as possible of the Bulgarian army
while the Allies and the Russians cut
in between them and the Bosphorus.

Turks Fear a Surprise
That the Turks regard the danger of
an enemy from the rear as more im-
minent than any approach by way of the
Dardanelles is evident from the hur-
ried readjustments that have been
made in the defenses of Constantinople,
all the armament which had been placed
along the Bosphorus and the Sea of
Marmora west of the capital being now
in course of transportation to the
Tebatadra line of forts, which crosses
the peninsula thirty miles west of Con-
stantinople, from the Bay of Tche-
kedhe to the Black Sea.

Much heavier armament also has been
shifted to the defenses of Adrian-
ople, while the Turkish garrisons of
practically all the posts except those
on the Gallipoli Peninsula have been
despatched to the Bulgarian frontier to
meet the forces of the Allies being
landed in the Bay of Enos and a pos-
sible Grecian drive for Constantinople
by way of Bulgarian Macedonia.

Making Terms With Rumania
Despatches from Milan quote the Cor-
riere della Sera as announcing that
General Radko Dimitrieff, commander
of the Russian army, ready to be de-
parted to the Balkans, is now in
Bucharest, seeking terms with the Ru-
manians under which he can traverse
Rumania with his army.

If the terms can be made it is
thought probable that the army will be
transported from Odessa to some point
on the southern coast of Rumania,
to land there for a land at-
tack upon the Bulgarian part of Varna,
which is only about ten miles from the
Rumanian line.

By following the Black Sea coast
line, the advance covered by the bat-
talions of the Black Sea fleet, General
Dimitrieff could avoid having to
traverse any of the mountainous sec-
tion of central Bulgaria and could co-
operate with the Russian navy in at-
tacking both Varna and Burgas, Bul-
garia's only important Black Sea ports.
From the Rumanian line to the Tur-
kish line, along the coast, is ninety
miles.

The Milan paper announces that it
has its information from official sources,
Varna Bombed Again

Yesterday the Russian fleet bom-
barded Varna for the second time,
sending hundreds of shells into the
port and against the fortifications. A
Bulgarian news agency report, by way
of Amsterdam, says that the bombard-
ment effected little material damage to
the harbor and fortifications and that
the only deaths resulting from the Rus-
sian shells were those of citizens and
non-combatants.

Constantinople is a dark city now,
strict orders against the use of lights
at night having been issued for fear
of Russian aeroplane raids, according
(Continued on Page Three)
